PROFESSIONAL SUMMARY

Computer Science student (GPA 3.98) at Telkom University specializing in software engineering, databases, and cybersecurity. Built a mobile ML classification app with 90%+ accuracy, administered a production PostgreSQL/ERP database, and taught over 75 students as a practicum assistant. 3rd-place CTF finisher with Google and Cisco cybersecurity certifications. Seeking software engineering or cybersecurity roles where hands-on technical delivery matters more than titles.

TECHNICAL SKILLS

Programming & Scripting: C, C++, Python, Go, JavaScript, Bash

Frameworks & Platforms: Flutter, Laravel, PostgreSQL, MQTT, TensorFlow / MobileNetV2, Git, Fast API, React

Systems & Security: Kali Linux toolset, Linux/Windows/macOS administration, network & web security fundamentals

WORK EXPERIENCE

Database Administrator and Architect, Research Team, Telkom University Surabaya

February 2026 – Present

- Design and administer the PostgreSQL database architecture for a production ERP system supporting manufacturing operations aligned with SDG 9.
- Build and maintain Entity-Relationship Diagrams (ERD) and integrity constraints; add specific table/entity count once available.

Full Stack Developer of "Fruto Sense", Campus Project, Telkom University

February 2026 – July 2026

- Built a fruit-scanning mobile app that classifies freshness, type, and ripeness using a 3-layer MobileNetV2 model, achieving over 90% classification accuracy.
- Integrated a Flutter frontend with a Laravel + PostgreSQL backend for real-time data sync and API communication.
- Selected as a featured project at the Computer Science Study Program Accreditation Exhibition for its applied AI implementation.

IoT Developer in Aquaculture & Irrigation Systems, Telkom University / LPPM Tel-U

March 2025 – July 2026

- Designed and deployed two field IoT systems: an automated catfish feeding system with MQTT-based remote mobile control, and a drip irrigation system for farmers in Sari Rogo Village.
- Wired hardware, programmed microcontrollers, and configured MQTT protocols for reliable device-to-app communication; add farmer/hectare count if available.

Practicum & Lab Assistant, Telkom University Surabaya

April 2025 – Present

- Taught and evaluated 41 students in Data Structures (ADTs, Linked Lists, Queues) and 38 students in Operating Systems (Xinu OS, Linux/Windows configuration, system-level scripting).
- Also mentor students in Core Programming labs, grading assignments and debugging code to improve problem-solving outcomes.

Freelance IT Consultant & Tutor, Surabaya

December 2023 – Present

- Deliver private instruction in Linear Algebra, Calculus, and Advanced Programming, with curricula adapted to each student's learning style.
- Tutored a student with an intellectual disability using individualized, patience-driven teaching methods; raised the student's average grade from C to A/B across all courses within 6 months.

ACHIEVEMENTS & CERTIFICATIONS

- 3rd Place, Capture the Flag (CTF) Competition, Telkom University Surabaya (2024) — solved challenges in Forensics, Web Exploitation, Cryptography, and Reverse Engineering using Kali Linux.
- Certified in Cybersecurity — Google (2025)
- Cisco Cybersecurity Fundamentals Certificate (2025)

- Talent Scouting Academy Cybersecurity Training (2024)

LEADERSHIP

- Director, Telemarketing & Services, Marketing Crew Tel-U Surabaya (Feb 2024 – Feb 2025) — led a customer service team and coordinated major campus events including graduation ceremonies.
- Public Relations Coordinator, East Java Student Leader Summit Vol. 2 (Mar 2025 – Jun 2025) — directed media and sponsor outreach for the event.

EDUCATION

Telkom University, Surabaya — B.S. Computer Science | Sep 2023 – Present | GPA 3.98

Bali Hati International Senior High School, Bali — Science Track | Jul 2020 – Jul 2023

Languages: Bahasa Indonesia (Native), English (Professional Working Proficiency), Russian (Elementary Proficiency)
